

# SHARING THE NEWS OF JESUS

- STEFFI SIBY » BLACKPOOL, UK

**I**magine... One of your friends watches an amazing movie. Or gets a new games console. Or some really cool trainers. You would want them to tell you about it... Right?

When good things happen, we want to share the good news and celebrate together. As Christians, we have been given the best news ever imaginable - Jesus!

So it is only right that we share Jesus with others.

You may be wondering how you can do this. The people around you at school may not seem that interested in hearing about Jesus. You may even be scared that people will make fun of you.

It is natural to have these doubts and fears. But we have the Holy Spirit to give us courage. He will always guide us when we ask him.

It may be hard to start talking about Bible stories or Church all the time but we can still be a witness for Christ. How?

By being Christ for others!

Think about Jesus. Think about who he was and what he did. He was kind, compassionate and peaceful. He helped others especially the poor and outcasts, who no one else

**You can be full of joy, peace and love. These are fruits of the Holy Spirit; so again we must pray to have these fruits.**

cared about. You can do this too in your own lives, in your own unique way.

You can be full of joy, peace and love. These are fruits of the Holy Spirit; so again we must pray to have these fruits.

You can make the effort to help others especially those who may be struggling with their studies or feeling lonely.

Through your behaviour, people will be touched. Then, they may come to you and ask you more about your faith. That would be the perfect opportunity to let others know that Jesus is the reason for your actions.

Dear friends, let us be like Jesus. Let us smile at strangers, let us say a kind word to everyone, let us offer help at home and be more patient, kind and gentle.

In this way, we can bring Jesus to absolutely everyone! ◊
